Electro

Man!

By: Brendan, age: 9

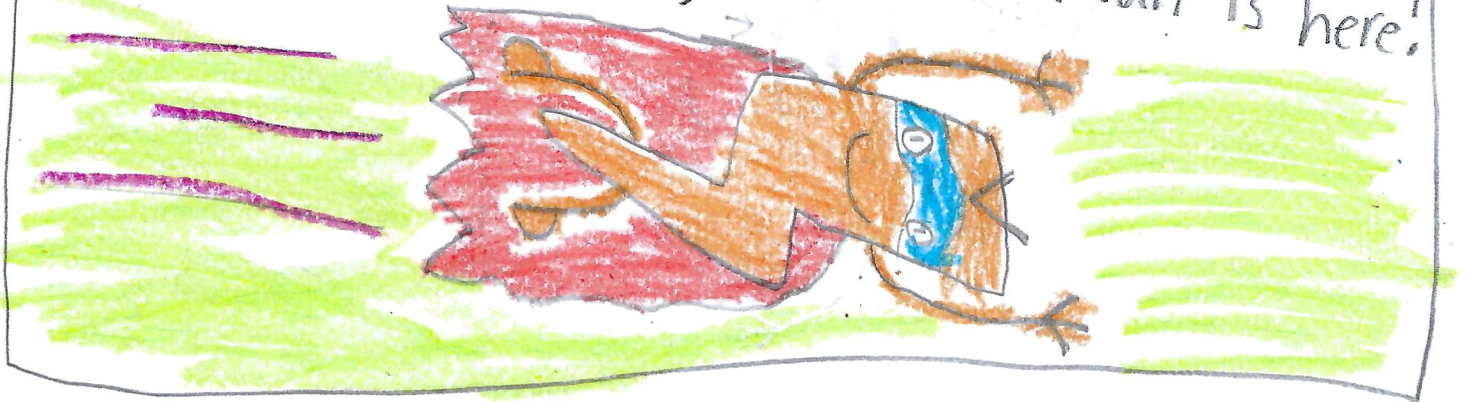

One time there was a bad storm.

It even knocked the power out!

... but no worries, Electro Man is here!

He sneaks into the house...

gets through a wall..

and hugs a wire.

(wires are Electro's greatest ally)

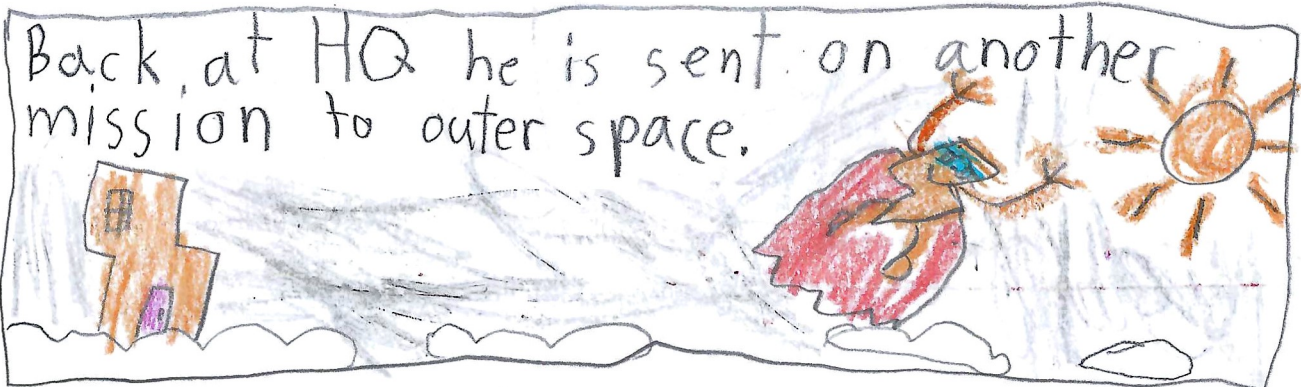

Soon... all power is restored...

And Electro Man goes back to his home.

Back at HQ he is sent on another mission to outer space.

He gets to outer space,

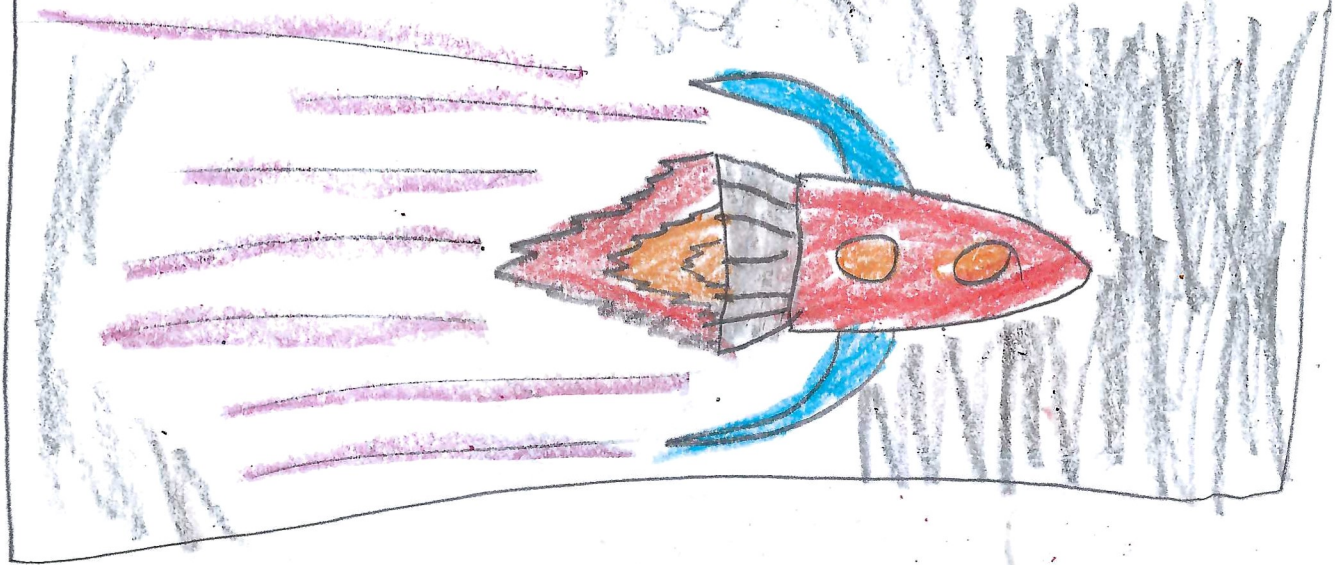

And sees a rocket in trouble!

And like before, he gets through the booster.

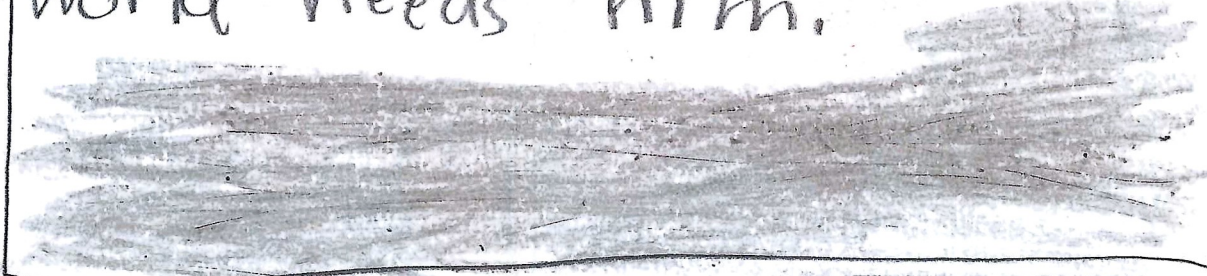

And turns on the power,

and some say he was burnt
by the hot flames and is bur-
ied on another planet.

And to return when the
world needs him.

bye!

The

End
